Tender Offer

Private Equity Investor plc's recent tender offer was completed at 235.2130 pence per share. At this price the company repurchased 19.32% of its outstanding shares - but investors who offered all of their shares will have had 20.05% repurchased.

Your Editor used the proceeds of this tender offer to re-invest in Private Equity Investor shares on-market, completing a purchase at £1.89 per share. At those figures, an investor starting with 2000 shares would have had 401 shares purchased by the company in the tender offer for £943.20 - which could have been re-invested to acquire around 499 shares on-market. That would increase an investor's shareholding by 98 shares (i.e. up 4.9% to 2098 shares) at no net cost.

Private Equity Investor plc

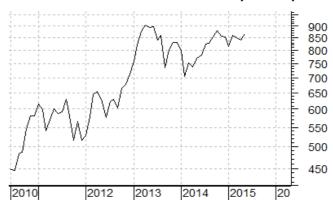

Fund Report

Scottish Oriental Smaller Companies Trust plc lifted net assets 4.5% over the half year to 28 February - in line with its two benchmark indices which rose 2.4% and 5.9%. The share price was up 2.1% as the discount to net assets increased.

The Fund Manager states that "nowhere can current valuations be deemed especially attractive" and that "valuations are high and the prospect for short term returns is diminished". In apparent conflict with that view, the trust recently borrowed £20 million - although still holds £34.1 million in cash (compared with total shareholder's equity of £289.6 million) and "will seek to

invest this money gradually once suitable long term investment opportunities have been identified".

Interest Payment

The Aberdeen Asian Smaller Companies Investment Trust plc Convertible Unsecured Loan Stock will pay their semi-annual interest of about 1.75 pence on 29 May (after trading ex-entitlement from 14 May).

The notes have a final conversion date of 31 May 2019, when they can either convert into one ordinary share for 8.3 notes (i.e. 830 pence per share) or 100 pence in cash. This cash redemption option minimises our risk over the next four years while giving us full participation in any appreciation of the ordinary shares.
