UK Bank Account

In today's issue of *Market Analysis* we discuss *electronic money accounts* from **Transferwise**. The "Borderless" accounts in GBP, USD, EUR or AUD can be used exactly like a regular bank account! Each individual account will have an unique, local bank account number and can receive (and make) payments from third parties exactly the same as any local bank account. For a UK account that is the standard 6-digit Sort Code and 8-digit Account Number.

Compared with a regular bank account there are only two major differences: Firstly, very few fees! There is no fee to open an account, no monthly fees and no minimum balance (i.e. a zero balance is acceptable). The only fee is £0.50 to make a withdrawal. Secondly, anyone from any country can open one - and it is very quick and very easy! If you are already registered for Transferwise's forex service then it will take one second to click to open your "Borderless" account and receive your unique UK bank account number! If you are not already registered then you just need to enter your details and upload identification (e.g. a copy of your passport) and proof of your residential address (e.g. a utility bill). It may take a day or two to have them verified.

Do these accounts really work? Your Editor updated his Charles Stanley and Company account with his new Transferwise "Borderless" bank details and then requested a small cash transfer out of the brokerage account.

Charles Stanley charges £25 for a CHAPS (i.e. same day) withdrawal but a BACS (i.e. within three days) withdrawal is free. We chose a BACS withdrawal. The money arrived in just under 48 hours and Transferwise notified us with an email.

We did, however, have a few problems updating the Charles Stanley website. To update bank account details you need to confirm with your username, answer your security question and enter your date of birth. The system rejected the date of birth. Checking with the Help Desk it appears my account was setup *before* Charles Stanley started recording birth dates!

Also, to update a UK bank account with Charles Stanley, your address <u>must include a valid UK postcode</u>. The Help Desk temporarily entered their own postcode in that field and, after the bank account details were updated, removed it.

Recommended International Investment Funds

Fund Reports

Aberdeen Asian Smaller Companies Investment Trust plc lifted net assets 15.4% over the year to 31 July 2017. Its benchmark index rose 14.3% and the share price was up 16.2%.

The company will pay a 14.3% higher annual dividend of 12.0 pence - plus a special dividend of 4.0 pence (nil in 2016) - on 7 December. The shares trade ex-dividend from 3 November.

In June the company negotiated a new US\$25 million, three year, multicurrency revolving loan facility. US\$12.5 million was borrowed for the full three years at a fixed interest rate of 2.506%, mainly to repay a maturing US\$9 million loan. The remaining US\$12.5 million is undrawn.

The Fund Manager believes "China is an exciting growth story" but has "concerns about corporate governance and quality of smaller companies there". The fund has investments in Hong Kong, but very little direct exposure to mainland Chinese listed companies.

The Manager states, "In contrast, India remains the place" where "good opportunities" are seen.

Overall the fund focuses upon "smaller companies" that are "nimble and can evolve to exploit niches unexplored by their larger counterparts" as well as domestic markets which benefit from growing domestic consumption.

Scottish Oriental Smaller Companies Trust plc lifted net assets 15.7% over the year to 31 August. The two benchmark indices rose 15.7% and 27.2%. The share price was up 19.4%.

A steady 11.5 pence dividend will be paid on 19 January 2018 (ex-dividend 8 December).

The fund increased its investment in the Indian Subcontinent from 26.6% to 32.8% of the portfolio and "continues to find smaller companies with strong growth prospects within the Indian Subcontinent".

The Fund Manager, however, is "not finding enough attractive opportunities" at current prices and holds 8.4% of the portfolio in cash.

Interest

Aberdeen Asian Smaller Companies Investment Trust plc's 3.5% Convertible Unsecured Loan Stock will pay half year interest of (about) 1.75 pence on 30 November, ex-interest from 9 November.

November 11, 2017. Page 3

Conversion Option

The **Aberdeen Asian Smaller Companies Investment Trust** Convertible Unsecured Loan Stock is convertible into ordinary shares every six months through to their maturity date of 31 May 2019.

At maturity, investors can either (1) redeem the notes in cash (at £1.00) or (2) convert 8.3 notes into one ordinary share.

The best option for investors is to wait until just before this final maturity date before making a decision. Conversion into ordinary shares will probably be the best choice (i.e. to benefit from any capital appreciation in the ordinary shares), but the cash redemption sets a minimum value that protects us against a major decline in value over the next 18 months.

The notes also offer a higher income, which (depending upon dividends paid on the ordinary shares) is probably worth about 3.3 pence more per note over the next 18 months.

Share Repurchases and Issues

Aberforth Smaller Companies Trust plc made four on-market share re-purchases over the last five weeks. In total it acquired 229,444 of its own shares and returned £3,034,829 to investors.

Aberdeen Asian Smaller Companies Investment Trust plc made seven share repurchases, acquiring 55,000 shares for £584,906.

Baillie Gifford Shin Nippon plc continued to issue new shares which were sold on-market at a premium to net asset value. In seven transactions the trust sold 1,035,000 new shares to raise an additional £8,211,560 for investment.
